

## Remote Displays

### Large Scoreboard Remote Displays (2" XLR-6, 3.5" XLR-8, 3.5" XLR-12)

Our XLR series of remote displays feature high visibility LED lights and full length bar graph across the bottom of the display. The use of high brightness and high resolution LEDs makes for easy viewing of weight information from a distance. The standard Transmitter/Receiver also helps in controlling the scale from a distance. Interfaces with Avery Weigh-Tronix AG or Digi-Star indicators using the RS232 port. Also, the XLR can be used when interfacing directly to a PC. Contact Avery Weigh-Tronix for setup requirements.

Note: Remote Display cable and debris shield must be ordered separately.

Part Number	Product	List Price
AWT05-508244	XLR-6 Large 2" (50 mm) 8 character LED Remote Display	\$1,365
AWT05-503508	XLR-8 Large 3.5" (88 mm) 8 character LED Remote Display	\$2,265
AWT05-503509	XLR-12 Large 3.5" (88 mm) 12 character LED Remote Display	\$3,015

### Remote Display Cables

Part Number	Product	List Price
AWT25-500477	30 ft / 9.2 m Cable Assembly, Serial RD with power	\$205
AWT25-501728	10 ft / 3.1 m extension cable to use with Serial RD cable assembly. This creates a disconnect point between the indicator in the cab's cable and the remote display's cable. Very useful when connecting and disconnecting mixer wagon to tractor.	\$160
AWT25-500929	30 ft / 9.2 m Cable Assembly, Interface to Digi-Star	\$215

### Debris Shields

Part Number	Product	List Price
AWT20-508532	XLR-6 Protective Stainless Steel Shield. Helps keep dust and moisture off display to improve viewing quality.	\$90
AWT20-504832	XLR-8 Protective Stainless Steel Shield. Helps keep dust and moisture off display to improve viewing quality.	\$125

### Accessories

Part Number	Product	List Price
AWT20-504460	XLR Mounting Plate Adapter	\$60
AWT05-505541	2 Remote Splitter Box for connecting indicator to two XLR remote displays	\$315

### Remote Displays for use with M640M/M640/M640XL

Part Number	Product	List Price
AWT05-507403	RD40XL 2.0 inch remote display with 30 ft cable, V-Mount	\$910

### Miniature Remote Displays (RD64M, RD40)

The RD64M/RD40 has a six digit 1.1" / 27.9 mm high backlit display. These miniature displays are ideal for customers that require low-cost remote viewing of the scale or have limited mounting space.

Note: When ordering, please specify indicator model you're connecting with and desired cable length.

### Remote Displays for use with 640M/640

Part Number	Product	List Price
AWT05-508193	RD40 (if using with: 640 series), 30 ft / 9.1 m cable length, V-Mount	\$765
RD40-30RM	RD40 (if using with: 640 series), 30 ft / 9.1 m cable length, RAM Mount	\$785
RD40-15MM	RD40 (if using with: 640 series), 15 ft / 4.5 m cable length, Mirror Mount	\$760
