

CC-30/50 Compression Load Cells

Avery Weigh-Tronix CC-30/50 Compression Load Cell offers a solution for higher capacity weighing applications. Example: convert truck or trailer mounted equipment such as a TMR mixer into a mobile scale. The load cells are placed between the equipment and the running-gear frame. Each load cell is milled from alloy steel and sealed against harsh environmental conditions for long-lasting performance.

Part Number	mv/V	Capacity		Cable Length	Shipping Weight		List Price
		lb	kg		lbs	kg	
53230-0027	2.13	30,000	15,000	30 ft, 5-pin connector	4	2	\$995
Note: 53230 series for service replacement for CC-20's only.							
53759-0028	3.00	30,000	15,000	30 ft, 5-pin connector	4	2	\$590
53759-0036	3.00	30,000	15,000	30 ft, tinned leads	4	2	\$570
56078-0025	2.50	50,000	25,000	30 ft, 5-pin connector	4	2	\$695
48611-0018	Polyurethane disk, 23/8" dia. x 3/8" (two disks required per CC-30/50 cell)						\$20
