

## Model 640/640XL Indicators

The Model 640/640XL indicators are user friendly Gross/Tare/Net weight indicators which include 1.1" (2.7 cm) digits on the 640, or optional 2" (5.0 cm) digits on the 640XL. Ideal for tough environments including mobile weighing applications. Included standard is an RS-232 and RD40/XL port (remote display output.) Display is LCD, 14-segment, with bright yellow green adjustable backlighting for easy viewing regardless of lighting conditions. Operates from either 12VDC or 110AC power source. Features include selectable weight filtering, 100 accumulator memory channels with individual statistics (count, total, and average weight accumulated) with alpha-numeric identification of those channels ideal for many agriculture applications including identifying field plots, seed types, recipes, and livestock pens or animals. Options include 2" (5.0 cm) display size, 2nd RS-232 serial port, wireless RD40RF output, 4-pin Amp or 5-pin AWT weight connector options, and XM64 wireless control (allows use of TARE and GROSS modes remotely).
